LICENSES, BTC.

Councillor Morton moved to draft a by-law fixing the amount to be paid for retail licen-see by houses recently admitted within the city limits, by the extension of the same.

The by-law being drafted fixing the amount at \$35 for the ensuing six months, then passed its first reading.

Councillor Drummend, reading from jottings of his ideas upon the proceedings which have recently taken place at the Licensing Court, drew the attention of the Council to and wirbed Mr. Elliott in quote his authority and wirbed Mr. who through couriesy alone were allowed to sit with the presiding magistrate, had pre-sumed to take the leading charge" of the Ceurt, and to postpone a number of liceuses which ought to have been granted without delay, and thus try to fetter and encumber the business engagements of the City Coun-cil. The Government had handed over the liquor and trade licenses to the City Council, who alone had to make arrangements for te good government of the city, and who had the right vested in them to use a discretionary power is granting licenses. It was improper for those magistrates, who knew nothing whatever of the financial arrangements of the city, to arrogate to themselves from Messre. F. Augustus and John L. Tayments of the city, to arrogate to themselves the prerogative of saying to whom licenses should or should not be granted, and he would move, to prevent a recurrence of such a state of affairs, that in future all retail licenses shall be applied for to this Council through the Mayor, and that the Mayor, and that the Mayor and that the Mayor and that the Mayor and that the Mayor and the such applications shall be made, and when he will hold a court for the granting of said licenses, and that he be further empawered to call to his assistance and counsel the Police Magistrate of this musicipality; and that in all tided, we believe, that a survey party under the Mayor, the subject matter shall be referred to this Council the Mayor and the Mayor.

The motion was put and carried and the Council from the shelf behind the bar.

He made these metions to remove any misapprehensions that may have existed as to the proper officer having power to grant Lquor licenses.

Councillor Morton, alluding to the observance of the Sabbath throughout the city, would assert without force of matted these

would assert without fear of contradiction that not a city in the Dominion could boss of a more strict and orderly population than supporting seven places of worship, and the pancity of criminal offences committed within the municipality, must pass for strong evidence in favor of his secretion. He thought that an attempt to cast a stigms upon the character of respectable men had been made by withhelding the immediate granting of licenses. He was in favor of Councillor Drummond's resolutions, and would give their his support.

In opening the business of the Court bis advisable to invite the magistrates who were sitting with him to attend the Court that he might avail himself of their valuable advice and hear any recommendations that they might think fit to offer. The power of granting licenses was vested solely in the City Council, but that body was always glad to receiv any advice and counsel upowimatters to important as the remi-unual granting of

icences (Hear.) Mr. Wallace then applied to his Worship

ion to the City Council.

Mr. Wallace argued that his motion had not for its object the redection of the num-ber of licenses, but that its aim was to bring within a tangible sphere offences which were known to be consumity perpetrated against society at large, and indeed to saloon-keepers themselves. He would request his Worship to put the motion to the Beach.

The presiding magistrate, however, again assured Mr. Wallace that the motion would be out of order if put, and added that the

magistrates present were invited out of courtesy to enable their voice upon the subject before the Court to be heard, but not to allow them to assume any jurisdiction in the matter. (Hear, hear.)

Mr. McMillan thought that his Worship mistook his authority and that of the Council too. The motion ought to be put and rejected if the voice of the Bench were opposed to it. The Council had not the power of granting licenses, but simply the regulating of amounts to be paid and disposal of the

SERIOUS COMPLICATION ABISING BETWEEN PRUSSIA AND AUSTRIA AND FRANCE. NEW YORK, June 19 .- A late copy of the London Times received yesterday, contains a letter from W. H. If my information is correct-ap I have reason to believe it is - the reserve are armed and those in Posen and Silesia are actually ready to move. There is considerable display of troops in Berlin. I attribute this to the preparation for the military spec-tacle, but I am told it refers to the relations ing to-day; no positive action was made of the bond question, owing to the absence of led to demands for categorical explanations from the President of the French Republic of The Board of Health have adopted measures to put the city in a theroughly good sanlitery condition. Austria declares that her organization is intended for defensive purposes; and looks to the east, and not the north or west; but it would need a very small provocation to induce Prince Bismarck to demand explanations at Vienna, also. I apprehend the Dominion Government will have no fault to find with this arrangement, if the people of British Columbia are only satisfied. To them British Columbia are only satisfied. To them it is a clear gain of \$19,042, to us it is a loss of that amount. Ten thousand deliars would be no small item distributed among the laboring population of this city, these dell times; and it is to be regretted that either in consequence of a miscalculation in proper-ing the plans for the building or as inexcus able desire on the part of some one connects with the preparation of said plans to come mise in the matter of Dominion expenditures in this Province, any such reduction should have been made in the total sum voted for the have been made in the total sum voted for the erection of a Marine Hospital.
